

GLOBAL SPORTS ANALYTICS: ADVANCED STATS FIVE ROUNDS OF EUROMILLIONS BASKETBALL

Friday 2nd November 2018

Pascal Meurs takes a look at each team's advanced statistics after five rounds of EuroMillions Basketball, powered by [Global Sports Analytics](#):

Kangoeroes Basket Mechelen:

PACE 79,4 (Ranked 10th)

After moving to their new hometown Mechelen, the Kangoeroes started off the season with a 2-3 record, with most recently a surprising home win over FILOU Oostende (90-74). So far, the team of Coach Vervaeck is playing the slowest pace of all teams in the league. Pace is measured as the number of possessions a team gathers during a game. Over recent years, it was powerhouse Oostende that successfully played by far the slowest pace of all teams, which is often the consequence of organized half court basketball with a deliberate shot selection.

Hubo Limburg United

eFG% 55% (Ranked 2nd)

A team's field goals percentage is of course an important key to success. Although a team that - in analogy of the recent evolutions in the NBA - takes a lot of three point attempts will typically have a lower % but can still be more effective. Therefore, the "effective field goal percentage (eFG%)" takes into account that
